pOpen-Tlipol (exo-)

RRID:Addgene_165523

Type: Plasmid

Proper Citation

RRID:Addgene_165523

Plasmid Information

URL: <http://www.addgene.org/165523>

Proper Citation: RRID:Addgene_165523

Insert Name: Tli DNA polymerase (exo-)

Organism: Other

Bacterial Resistance: Ampicillin

Vector Backbone Description: Vector Backbone:pBuild; Vector Types:Synthetic Biology; Bacterial Resistance:Ampicillin

Comments: DNA polymerase; lacks 3' to 5' exonuclease activity. Intein encoded endonucleases are thought to mediate intein mobility by site-specific recombination initiated by endonuclease cleavage at the 'homing site' in gene that lack the intein. Comparable to VentR (exo-) DNA Polymerase at NEB. The plasmids in the Open Enzyme collection contain genetic parts and are not functional by themselves. Researchers can clone these enzymes into an expression vector of their choice and then transform into E. coli bacteria for expression and purification. Additional information can be found at <https://www.addgene.org/depositor-collections/open-enzyme/>.

Plasmid Name: pOpen-Tlipol (exo-)

Record Creation Time: 20220422T221934+0000

Record Last Update: 20260815T080930+0000

Ratings and Alerts

No rating or validation information has been found for pOpen-Tlipol (exo-).
