pD40-His/V5-c-MycT58A

RRID:Addgene_45598

Type: Plasmid

Proper Citation

RRID:Addgene_45598

Plasmid Information

URL: <http://www.addgene.org/45598>

Proper Citation: RRID:Addgene_45598

Insert Name: c-Myc T58A

Organism: Mus musculus

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:15048125](#)

Vector Backbone Description: Backbone Marker:Invitrogen; Backbone Size:7143; Vector Backbone:pcDNA DEST40; Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: Alternate plasmid names: pD40-His-c-MycT58A; pcDNA-DEST40 Myc T58A
Plasmid construction information: Point mutations were introduced into the murine c-Myc sequence in the CMV-Myc plasmid (Hann et al., Genes Dev. 1994, PMID: 7958908) using the GeneEditor kit (Promega) per manufacturer's instructions using oligonucleotide MycT58A, 5'-CTGCTTCCCGCCCCGCCCTGTC-3'. The His6-tagged c-MycT58A plasmid was then created by PCR amplification with a CACC 5' extension added to the 5' primer for cloning into the TOPO entry clone from Invitrogen (Carlsbad, CA). This sequence was then moved into the pDEST-40 mammalian expression vector using Gateway technology (Invitrogen), creating pD40-His-c-MycT58A. For more plasmid information (map and sequence), see the wildtype version, pD40-His/V5-c-Myc (Addgene plasmid 45597) For additional usage information, see the associated article (Yeh et al. Nat Cell Biol. 2004) as well as Arnold et al. EMBO 2009 (PMID: 19131971).

Plasmid Name: pD40-His/V5-c-MycT58A

Relevant Mutation: T58A

Record Creation Time: 20220422T222235+0000

Record Last Update: 20260905T075656+0000

Ratings and Alerts

No rating or validation information has been found for pD40-His/V5-c-MycT58A.

No alerts have been found for pD40-His/V5-c-MycT58A.
