### Resource Information

**URL:** <http://srv00.ibbe.cnr.it/ASPicDB/>

**Proper Citation:** ASPicDB (RRID:SCR\_002102)

**Description:** A database to access reliable annotations of the alternative splicing pattern of human genes, obtained by ASPic algorithm (Castrignano et al. 2006), and to the functional annotation of predicted isoforms. Users may select and extract specific sets of data related to genes, transcripts and introns fulfilling a combination of user-defined criteria. Several tabular and graphical views of the results are presented, providing a comprehensive assessment of the functional implication of alternative splicing in the gene set under investigation. ASPicDB also includes information on tissue-specific splicing patterns of normal and cancer cells, based on available EST data and their library source annotation.

**Abbreviations:** ASPicDB

**Synonyms:** Alternative Splicing Prediction Data Base, ASPicDB - A Database tool for alternative splicing analysis

**Resource Type:** data or information resource, database

**Defining Citation:** [PMID:21051348](#), [PMID:18388144](#)

**Keywords:** annotation, splicing pattern, gene, transcript, intron, protein, variant, alternative splicing, splicing, blast, exon, u2, u12, isoform

**Related Condition:** Normal, Cancer

**Funding:**

**Resource Name:** ASPicDB

**Resource ID:** SCR\_002102

**Alternate IDs:** OMICS\_01882

**Record Creation Time:** 20220129T080211+0000

**Record Last Update:** 20250422T055016+0000
