(RRID:SCR_003467)

Description: The academic programs and scientific research interests in our department cover a wide range of topics, with special emphasis on Cell Biology, Neurobiology, Developmental Biology, Physiology, Anatomy, Biophysics, and Neuroinformatics. Together, faculty and students in our department study biological processes that span the continuum from single cells to the entire human body. The Department of Cell Biology and Neuroscience offer both an Undergraduate and Graduate Program, which includes Ph.D. or M.S. degrees in Neuroscience or Biological Science. Two different undergraduate degree options are available within the Cell Biology and Neuroscience major: Biomedical Sciences and Cell Biology & Neuroscience. The Department of Cell Biology and Neuroscience offers exciting opportunities to work with nationally and internationally recognized faculty on a wide range of research topics, including cognitive neuroscience, neurophysiology, neuroinformatics, developmental biology, cell biology, biophysics and computational neuroscience.

Abbreviations: CBN

Synonyms: Montana State University Department of Cell Biology and Neuroscience, Montana State University Department of Cell Biology Neuroscience, MSU Dept. of Cell Biology and Neuroscience

Resource Type: portal, department portal, data or information resource, organization portal

Resource Name: Montana State University, Department of Cell Biology and Neuroscience

Resource ID: SCR_003467

Alternate IDs: nif-0000-02019

Record Creation Time: 20220129T080219+0000

Record Last Update: 20260821T042618+0000

Ratings and Alerts

No rating or validation information has been found for Montana State University, Department of Cell Biology and Neuroscience.

No alerts have been found for Montana State University, Department of Cell Biology and Neuroscience.
