Proper Citation: Neuro Bureau - Berlin Mind and Brain Sample (RRID:SCR_003537)

Description: Dataset consisting of a community sample of individuals ranging in age from 18 to 60 years old with at least two 7.5-minute resting state fMRI scans. During the resting state scan participants were instructed to relax while keeping their eyes open. In part of the sample eye status was randomized between scans. The particular eye status for each scan is indicated in the phenotypic information. No visual stimulus was presented. A subset of participants completed the ICS and PANAS affective behavior scales. The following data are released for every participant: * Scanner Type: Siemens, 3T Trio Tim * 7.5-minute resting state fMRI scan (R-fMRI) * MPRAGE anatomical scan, defaced to protect patient confidentiality * Demographic information, including ICS and PANAS scores (included in the release file).

Abbreviations: Neuro Bureau/Berlin Mind and Brain Sample

Synonyms: Neuro Bureau - Berlin: Mind & Brain Sample, Neuro Bureau/Berlin Mind and Brain Institute Sample
