Proper Citation: St. James Hospital Cryobiology Laboratory Stem Cell Facility (RRID:SCR_004458)

Description: The Cryobiology laboratory is a stem cell processing laboratory, preparing clinical grade haemopoietic (bone marrow or peripheral blood) stem cells for transplant. The Laboratory supports the National Adult Stem Cell Transplant Programme based in St James Hospital treating Leukemia and related disorders. Approximately 100 Transplants are carried out annually. The Tissue Establishment is part of a network of hospitals carrying out stem cell transplant. Stem cells are imported from abroad and exported world wide for stem cell transplantation. The Laboratory is a GMP Tissue Establishment and is licensed by the Irish Medicines Board to process cells under the EU tissue directive.

Abbreviations: St. James Stem Cell Facility

Synonyms: St. James's Hospital Cryobiology Laboratory Stem Cell Facility, St. James's Stem Cell Facility, St. James's Hospital Stem Cell Facility

Resource Type: material resource, biomaterial supply resource, cell repository

Keywords: stem cell, haemopoietic stem cell, bone marrow, blood, peripheral blood, peripheral blood stem cell, bone marrow stem cell, transplant, leukemia, leukemia related disorder, public, frozen, cryopreserved

Related Condition: Leukemia, Leukemia related disorder

Funding:

Availability: Public: Stem cells are imported from abroad and exported world wide for stem cell transplantation.

Resource Name: St. James Hospital Cryobiology Laboratory Stem Cell Facility

Resource ID: SCR_004458

Alternate IDs: nlx_143743

Record Creation Time: 20220129T080224+0000

Record Last Update: 20250525T032033+0000

Ratings and Alerts

No rating or validation information has been found for St. James Hospital Cryobiology Laboratory Stem Cell Facility.

No alerts have been found for St. James Hospital Cryobiology Laboratory Stem Cell Facility.
