**Proper Citation:** LifeTek OrthoBiologics (RRID:SCR\_004488)

**Description:** THIS RESOURCE IS NO LONGER IN SERVICE, documented September 2, 2016. LifeTek is a full service International Tissue Bank, with recovery and processing partners in the United States, Spain and Mexico. Our goal is to provide safe, quality allograft implants, therefore serving donor families, physicians and recipients. Following regulations established by state and federal agencies, including the United States Food and Drug Administration, specific steps are taken to ensure donor suitability, including serologic testing performed by CLIA certified laboratories. LifeTek aseptically process tissues in Class 100 Cleanrooms, significantly reducing the risk of airborne contaminants. Equipment and reagents used are sterilized in steam autoclaves. Grafts are further processed and sterilized using Clearant Technology. LifeTek allografts are provided either freeze-dried or frozen. Freeze-dried allografts are stored at ambient temperatures, while frozen allografts are stored at -40 degrees C or colder. Freeze-dried allografts are provided with a maximum of two years expiration, frozen allografts are provided with a maximum of five years expiration.

**Abbreviations:** LifeTek

**Synonyms:** LifeTek OrthoBiologics LLC

**Resource Type:** biomaterial supply resource, material resource, tissue bank

**Funding:**

**Availability:** THIS RESOURCE IS NO LONGER IN SERVICE

**Resource Name:** LifeTek OrthoBiologics

**Resource ID:** SCR\_004488
