Inflammatory Breast Cancer Biobank (RRID:SCR_004556)

Resource Information

URL: <http://www.ibcresearch.org/biobank/>

Proper Citation: Inflammatory Breast Cancer Biobank (RRID:SCR_004556)

Description: The IBC Research Foundation BioBank is a secure, privacy-protected collection of biological specimens from ibc-diagnosed patients (cases, and, unlike the former George Washington University IBC Registry, ibc patients who have died, those who are under legal age, and those living but unable to make decisions for themselves, may be consented to participate in the IBC Research Foundation BioBank by their authorized representative) and from those not diagnosed with ibc (controls), volunteering following a consent decision making process, and signing an Informed Consent. Clinical Data and a comprehensive questionnaire will also be obtained for those diagnosed with ibc. The Inflammatory Breast Cancer Research Foundation (ibcRF) has established a BioBank and Clinical Database. The BioBank contains non-tumor RNA and DNA, tumor RNA and DNA, blocks and slides from diagnostic pathology, and medical records describing clinical and pathologic findings at diagnosis.

Abbreviations: IBC BioBank

Synonyms: ibcRF BioBank, IBC Research Foundation BioBank

Resource Type: biomaterial supply resource, material resource

Keywords: clinical, cancer, inflammatory breast cancer, control, non-tumor rna, non-tumor dna, tumor rna, tumor dna, block, slide, breast cancer, tumor, dna, rna

Related Condition: Inflammatory breast cancer, Control

Funding:

Availability: Public, Researcher contacts ibcRF for proposal guidelines, Submit proposal, Evaluation process of proposal by ibcRF Medical Advisory Board and Board of Directors, Discussion/negotiation of transfer agreement and applicable fees, If approved, IbcRF authorizes release of coded samples from the contract lab.
