Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on January 11, 2023. A service and research oriented network of statewide regional brain bank sites. The intent of the brain bank program is to study brains of persons clinically diagnosed with dementia and provide tissue for research after their deaths. Mt. Sinai Medical Center contracts annually with the State of Florida to operate the primary brain bank. Coordinators at regional brain bank sites in Orlando, Tampa and Pensacola assist in recruiting participants and act as liaisons between the brain bank and participant families. Alzheimer's disease respite care program providers, memory disorder clinics, and model day care programs also recruit brain bank participants. The Florida Brain Bank supports collaborative research programs related to Alzheimer's disease and other degenerative disorders of the brain.
