Segmentation of Hippocampus Subfields

RRID:SCR_005996

Type: Tool

Proper Citation

Segmentation of Hippocampus Subfields (RRID:SCR_005996)

Resource Information

URL: <http://freesurfer.net/fswiki/HippocampalSubfieldSegmentation>

Proper Citation: Segmentation of Hippocampus Subfields (RRID:SCR_005996)

Description: A software package for automatic segmentation of hippocampal subfields in magnetic resonance images. Given a pair of T1-weighted and T2-weighted images (the latter acquired using a protocol tuned for hippocampus imaging), ASHS will automatically label main subfields of the hippocampus, and some extra-hippocampal structures, using multi-atlas segmentation. The main method is described in the Yushkevich et al. 2011 Neuroimage paper (<http://tinyurl.com/cffrp3p>). * execution requires: Advanced Normalization Tools, FSL

Abbreviations: ASHS

Synonyms: Automatic Segmentation of Hippocampal Subfields, HippocampalSubfieldSegmentation

Resource Type: data processing software, image analysis software, segmentation software, software application, software resource

Defining Citation: [PMID:19405131](#), [PMID:20600984](#)

Keywords: hippocampus, mri, t1-weighted image, t2-weighted image, ca1, ca2, ca3, statistical modeling, magnetic resonance

Availability: GNU General Public License

Resource Name: Segmentation of Hippocampus Subfields

Resource ID: SCR_005996

Alternate IDs: nlx_151370

Alternate URLs: <http://www.nitrc.org/projects/ashs>
