SecStr

RRID:SCR_006220

Type: Tool

Proper Citation

SecStr (RRID:SCR_006220)

Resource Information

URL: <http://athina.biol.uoa.gr/SecStr/>

Proper Citation: SecStr (RRID:SCR_006220)

Description: A tool to Predict the Secondary Structure of a protein from its amino acid sequence alone. The SecStr package uses six different secondary structure prediction methods (Nagano, Garnier et al., Burges et al., Chou and Fasman, Lim and Dufton and Hider). The results of those methods are combined into a Joint Prediction Histogram (JPH) as described by Hamodrakas, 1988 and Hamodrakas et al., 1982. As previously mentioned, the SecStr package contains computer programs making use of the secondary structure prediction methods of Nagano, Garnier et al., Burges et al., Chou and Fasman, Lim and Dufton and Hider. These programs were written in Fortran. The results of individual prediction methods are combined as described by Hamodrakas (1988), using a Perl program, to produce joint prediction histograms (JPH), for three types of secondary structure, which may be presented separately on a Java Applet. The output may be given either in text or graphics mode. For the latter a Java capable browser is required.

Abbreviations: SecStr

Synonyms: SecStr - Secondary Structure Prediction, Secondary Structure Prediction, Secondary Structure Prediction of Proteins

Resource Type: analysis service resource, data analysis service, production service resource, service resource

Keywords: secondary structure, prediction, protein, algorithm, text, graphics

Availability: All rights are reserved for the whole or part of the program. Permission to use, Copy, And modify this software and its documentation is granted for academic use provided that:1. this copyright notice appears in all copies of the software and related documentation; 2. bugs will be reported to the authors.

Resource Name: SecStr

Resource ID: SCR_006220

Alternate IDs: nlx_151767

Record Creation Time: 20220129T080235+0000

Record Last Update: 20260904T000153+0000

Ratings and Alerts

No rating or validation information has been found for SecStr.

No alerts have been found for SecStr.
