Proper Citation: Substance Abuse and Mental Health Data Archive (RRID:SCR_007002)

Description: Database of the nation's substance abuse and mental health research data providing public use data files, file documentation, and access to restricted-use data files to support a better understanding of this critical area of public health. The goal is to increase the use of the data to most accurately understand and assess substance abuse and mental health problems and the impact of related treatment systems. The data include the U.S. general and special populations, annual series, and designs that produce nationally representative estimates. Some of the data acquired and archived have never before been publicly distributed. Each collection includes survey instruments (when provided), a bibliography of related literature, and related Web site links. All data may be downloaded free of charge in SPSS, SAS, STATA, and ASCII formats and most studies are available for use with the online data analysis system. This system allows users to conduct analyses ranging from cross-tabulation to regression without downloading data or relying on other software. Another feature, Quick Tables, provides the ability to select variables from drop down menus to produce cross-tabulations and graphs that may be customized and cut and pasted into documents. Documentation files, such as codebooks and questionnaires, can be downloaded and viewed online.

Abbreviations: SAMHDA

Synonyms: Substance Abuse & Mental Health Data Archive

Resource Type: catalog, data or information resource, database

Keywords: substance abuse, mental health, analysis, adolescent, addiction, drug of abuse, adult human, young human, treatment, drug, alcohol, behavior, mental health, public health, data set

Funding: Substance abuse and mental health services administration contract 283-10-0324

Availability: Public, Free, Restricted use

Resource Name: Substance Abuse and Mental Health Data Archive

Resource ID: SCR_007002

Alternate IDs: r3d100010263, nif-0000-00618

Alternate URLs: <http://www.datafiles.samhsa.gov>, <https://doi.org/10.17616/R3F60W>

Record Creation Time: 20220129T080239+0000

Record Last Update: 20260829T182258+0000
