TMRPres2D

RRID:SCR_007382

Type: Tool

Proper Citation

TMRPres2D (RRID:SCR_007382)

Resource Information

URL: <http://bioinformatics.biol.uoa.gr/TMRPres2D/>

Proper Citation: TMRPres2D (RRID:SCR_007382)

Description: Software that automates the creation of uniform, two-dimensional, high analysis graphical images/models of alpha-helical or beta-barrel transmembrane proteins. Protein sequence data and structural information may be acquired from public protein knowledge bases, emanate from prediction algorithms, or even be defined by the user. Several important biological and physical sequence attributes can be embedded in the graphical representation. The application has been written using the platform independent Java language by Sun Microsystems. The implementation is likely to encapsulate the Applet and JavaBean technology. Consequently, the tool, apart from standalone application, may be used as an applet or even embedded in a web-server. Thus, it can serve to exhibit transmembrane protein schematic models in web pages. Requirements for the stand-alone application: Java Runtime Environment 1.4.x The source code is available to any interested party, upon request from the authors.

Abbreviations: TMRPress2D

Synonyms: TransMembrane protein Re-Presentation in 2 Dimensions tool, TMRPres2D: High quality visual representation of transmembrane protein models

Resource Type: software resource, source code

Defining Citation: [PMID:15201184](#)

Keywords: two-dimensional, graphic, image, model, alpha-helical, beta-barrel, transmembrane protein, protein sequence, graphical representation, visualization software, data visualization software

Availability: Please cite.

Resource Name: TMRPres2D

Resource ID: SCR_007382

Alternate IDs: nif-0000-00382

Record Creation Time: 20220129T080241+0000

Record Last Update: 20260912T200317+0000

Ratings and Alerts

No rating or validation information has been found for TMRPres2D.

No alerts have been found for TMRPres2D.
