Proper Citation: Medical University of South Carolina Center on Aging (RRID:SCR\_008825)

**Description:** A center dedicated to research, service, and education concerning aging. MUSC primarily promotes the health, increased longevity, and improved quality of life of senior South Carolinians. This organization does such through the establishment of a national translational research program about aging, the development of a comprehensive/coordinated system of health care delivery for older individuals, and providing health education and outreach to students, faculty members, practicing health providers and the overall public. This center consists of several different research programs, including the Movement Disorder program, Stroke program, Alzheimer's program, Biology of Aging program, Outreach and Education program, and the Clinical Geriatric program.

Abbreviations: MUSC Center on Aging
