# **GENOOM**

RRID:SCR\_009200

Type: Tool

### **Proper Citation**

GENOOM (RRID:SCR\_009200)

#### Resource Information

URL: https://github.com/gaow/genetic-analysis-software/blob/master/pages/GENOOM.md

**Proper Citation:** GENOOM (RRID:SCR\_009200)

**Description:** Software application that implements a virtual computer world where biological entities are digital objects. In this world, each individual of a population is represented by a set of chromosomes with genetic elements (markers, genes, Quantitative Traits Loci, etc.) and attributes (phenotype, age, fertility, living status, exposure, etc.). It comes with a built-in model allowing basic genetic studies by simulations, performed according to parameter values such a penetrance matrix (phenotype probabilities for each genotype), exposure, between-relative mating probabilities, and a probability of migration in a two-dimensional migration process. The simulated populations could be analysed with different packages for statistical or genetical analysis (e.g., SAS, S-PLUS, Linkage, Mapmaker/sibs, Genehunter). Pedigrees can also be simulated according to a pedigree file at the LINKAGE format. (entry from Genetic Analysis Software)

**Abbreviations:** GENOOM

Synonyms: GENetic Object Oriented Modeling in population genetics

Resource Type: software resource, software application

**Keywords:** gene, genetic, genomic, c++, unix, linux

**Funding:** 

Resource Name: GENOOM

Resource ID: SCR\_009200

Alternate IDs: nlx\_154350

Old URLs: http://www.genoom.com/

**Record Creation Time:** 20220129T080251+0000

Record Last Update: 20250506T060937+0000

### Ratings and Alerts

No rating or validation information has been found for GENOOM.

No alerts have been found for GENOOM.
