## Harvard PCPGM Biosample Services Facility

RRID:SCR\_009856

Type: Tool

### Proper Citation

Harvard PCPGM Biosample Services Facility (RRID:SCR\_009856)

### Resource Information

**URL:** <http://harvard.eagle-i.net/i/0000012e-020d-f054-b2b9-4d8780000000>

**Proper Citation:** Harvard PCPGM Biosample Services Facility (RRID:SCR\_009856)

**Description:** Core facility that provides the following services: DNA extraction from whole blood, saliva, isolated cell pellet, RNA extraction from whole blood with PaxGene tubes, Lymphoblast transformation, Isolation and cryo-preservation of white blood cells. The BioSample Services Facility (BSF) provides sample handling and preparation resources to investigators in the Partners research community. Our goal is to efficiently and effectively process specimens enabling the generation of high quality data via down stream processes. All projects containing subject samples and submitted to the BSF for handling must be IRB approved in advance. All specimens must be entered into our Laboratory Information Management System (GIGPAD) prior to delivery to the BSF. Our staff will work with you to design an implementation plan that would best fit your research needs.

**Resource Type:** core facility, access service resource, service resource

**Keywords:** dna extraction, rna extraction, material processing, cryoembedding

**Resource Name:** Harvard PCPGM Biosample Services Facility

**Resource ID:** SCR\_009856

**Alternate IDs:** nlx\_156326

**Alternate URLs:** <http://pcpgm.partners.org/biorepository/bsf>

**Record Creation Time:** 20220129T080255+0000

**Record Last Update:** 20260808T190548+0000

### Ratings and Alerts

No rating or validation information has been found for Harvard PCPGM Biosample Services Facility.

No alerts have been found for Harvard PCPGM Biosample Services Facility.
