Proper Citation: Penn Small Animal Imaging Facility: MRI/MRS Sub-Core (RRID:SCR_010032)

Description: The MR Sub-Core of the SAIF provides the instrumentation and expertise necessary to perform a broad spectrum of magnetic resonance imaging and spectroscopy studies on a wide range of biological samples including small animals (cats, rabbits, rats, mice), tissue specimens, cultured cells and tissue extracts. This facility includes a conveniently located, well equipped surgery room used for preparing the animals for MR exams and a wide assortment of supporting equipment, i.e. anesthesia machines, MR compatible vital signs monitors (SA Instruments), infusion pumps (Harvard), heating pads, etc. A variety of perishable supplies used in animal preparation are provided by the facility.

Resource Type: access service resource, core facility, service resource

Resource Name: Penn Small Animal Imaging Facility: MRI/MRS Sub-Core

Resource ID: SCR_010032

Alternate IDs: nlx_156502

Record Creation Time: 20220129T080256+0000
