**Proper Citation:** UTSA Cellular and Tissue Engineering Laboratory (RRID:SCR\_010144)

**Description:** These laboratories are dedicated to "Cellular and Tissue Engineering" research activities which focus on in vitro studies of mammalian cell and protein interactions with material substrates, biomaterials (including nanostructured ones), biocompatibility, and the effect of select biochemical and biophysical (specifically, sustained and cyclic pressure and electrical) stimuli on mammalian cell function pertinent to new tissue formation and regeneration.
