# Human Developmental Anatomy Ontology abstract version 2

RRID:SCR\_010337

Type: Tool

### **Proper Citation**

Human Developmental Anatomy Ontology abstract version 2 (RRID:SCR\_010337)

#### **Resource Information**

URL: http://purl.bioontology.org/ontology/EHDAA2

**Proper Citation:** Human Developmental Anatomy Ontology abstract version 2 (RRID:SCR 010337)

**Description:** A structured controlled vocabulary of stage-specific anatomical structures of the human. It has been designed to mesh with the mouse anatomy and incorporates each Carnegie stage of development (CS1-20). The abstract version of the human developmental anatomy ontology compresses all the tissues present over Carnegie stages 1-20 into a single hierarchy. The heart, for example, is present from Carnegie Stage 9 onwards and is thus represented by 12 EHDA IDs (one for each stage). In the abstract mouse, it has a single ID so that the abstract term given as just "heart" really means "heart (CS 9-20)". Timing details will be added to the abstract version of the ontology in a future release.

**Abbreviations:** EHDAA2

Resource Type: data or information resource, controlled vocabulary, ontology

Keywords: obo

**Funding:** 

Resource Name: Human Developmental Anatomy Ontology abstract version 2

Resource ID: SCR\_010337

Alternate IDs: nlx\_157430

**Record Creation Time:** 20220129T080258+0000

**Record Last Update:** 20250429T055432+0000

## **Ratings and Alerts**

No rating or validation information has been found for Human Developmental Anatomy Ontology abstract version 2.

No alerts have been found for Human Developmental Anatomy Ontology abstract version 2.
