**Description:** With 20,000 students studying a range of disciplines in seven different faculties, NTNU is alive with the intellectual energy of people pursuing their dreams. Whether your passion is ship design or medical research, virtual reality or urban renewal in China, NTNU has something for you. NTNU is Norway''s second largest university, with an annual budget of about US \$800 million. Its 53 departments are spread out over seven major campuses, and graduate about 3,300 students every year, two-thirds of which are master's or PhD candidates. The university has more than 100 laboratory facilities distributed among the different faculties and departments. These are central elements in NTNU''s education and research work.
