Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on April 25, 2024. Protein Chemistry Technology Core was established to provide efficient, high quality services to researchers in the academic community. The services presently offered include peptide synthesis and Edman protein sequencing. Our facility, its state-of-the-art instrumentation, and computer software is constantly upgraded to ensure the highest possible level of support. It is our aim to provide quality performance and offer experienced support, both through our products and people.
