Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on April 22, 2024. Analyte Center provides analytical services to the research community within Baylor College of Medicine and to investigators at other institutions. We provide access to state-of-the-art gas chromatography/mass spectroscopy, tandem mass spectroscopy, and high pressure liquid chromatography for the purpose of quantitative analysis of small organic molecules. In addition to a broad spectrum of routinely offered services we can also provide specialty services on demand provided our instrumentation will provide the sensitivity and specificity required for the investigator.
