Description: The Department of Neurology at Louisiana State University Health Sciences Center in New Orleans provides state-of-the-art clinical evaluation and care for patients with neurological diseases. Its educational and research programs share the common goals of enhancing the knowledge of neuroscience and improving the diagnosis and care of patients. One of their primary missions is to educate and train medical students, physicians and other health care providers. Their residency and fellowship programs provide physicians with comprehensive training and experience in general and subspecialty neurology. Furthermore, their research programs encompass diverse areas and expertise in neurology and neuroscience. And additionally, many of the department's faculty have established collaborative multi-disciplinary research projects, especially with members of the LSU Neuroscience Center of Excellence. The Neurology Residency Program at LSU Health Sciences Center is fully accredited by the ACGME. The Department of Neurology is a component of the nationally respected LSU Health Sciences Center, which is the major medical training institution for the State of Louisiana. The LSU Health Sciences Center has many components, one of which is the Neuroscience Center of Excellence, a state of the art research center for the neurosciences. The LSU Health Sciences Center not only sponsors medical education, but also has a School of Nursing, Dentistry, Physical and Occupational Therapy. This allows for the flourishing of multidisciplinary research and innovative thinking. It accepts three residents per year; residents must complete one year of internal medicine prior to entering into our program. Additionally, LSUHSC Neurology has fellowship available in: - Child Neurology - Pain Management - Neurophysiology
