Proper Citation: Baltimore Longitudinal Study of Aging (BLSA) (RRID:SCR_013148)

Description: America's longest-running scientific study of human aging, begun in 1958. BLSA scientists are learning what happens as people age and how to sort out changes due to aging from those due to disease or other causes. More than 1,400 men and women are study volunteers. They range in age from their 20s to their 90s. This study is currently recruiting healthy seniors over 70.

Abbreviations: BLSA

Synonyms: Baltimore Longitudinal Study of Aging

Resource Type: research forum portal, portal, data or information resource, disease-related portal, database, topical portal

Keywords: late adult human, adult, healthy, clinical data, middle adult human, disease, clinical study
