Proper Citation: Ohio U Diabetes Endocrine Biorepository (RRID:SCR_013435)

Description: Plasma and cell fractions obtained from patients with Diabetes and endocrine diseases and their first degree relatives who agreed to participate in the development of the biorepository. Plasma is aliquoted into multiple specimen containers and stored at -80C. Cell fractions are subjected to DNA and RNA fractionation, aliquoted into multiple specimen containers, and frozen at -70 to -80 degrees centigrade. Anyone who would like to obtain samples from the Biorepository must provide evidence that they have adequate training in the use of bloodborne pathogens, as outlined by OSHA. The investigator must agree to indemnify and hold harmless the Ohio University Diabetes/Endocrine Diseases Biorepository, the Appalachian Rural health Institute, and the Ohio University College of Osteopathic Medicine from any claims, liability, costs, and damages.

Abbreviations: Ohio University Diabetes/Endocrine Diseases Biorepository

Synonyms: Ohio University Diabetes / Endocrine Diseases Biorepository, Diabetes / Endocrine Diseases Biorepository

Resource Type: biomaterial supply resource, material resource

Keywords: blood, plasma, cell fraction, dna, rna, frozen, diabetes, endocrine disease

Related Condition: Diabetes, Endocrine disease

Funding:

Availability: Available to qualified researchers

Resource Name: Ohio U Diabetes Endocrine Biorepository

Resource ID: SCR_013435

Alternate IDs: nlx_66534

Record Creation Time: 20220129T080316+0000

Record Last Update: 20250426T060327+0000
