Proper Citation: BioWorks (RRID:SCR_014594)

Description: A configurable software package for peptide and protein mass spectrometry analyses. It includes the SEQUEST search algorithm to identify separate proteins in complex mixtures, interactive navigation tools to filter and sort protein summaries, customized spectral plots, and chromatograms using the PEPMATCH and PEPMAP tools. This software also has batch processing capabilities to improve throughput by queuing up several files, and custom-build proprietary databases, index databases, and retrieve databases through a public server.

Resource Type: data analysis software, software resource, software application, data processing software

Keywords: mass spectrometry, mass spectrometry analysis, sequest, algorithm, navigation, protein, chromatogram, pepmatch, pepmap, proprietary database, index, retrieve, FASEB list

Availability: Commercial

Resource Name: BioWorks

Resource ID: SCR_014594

Record Creation Time: 20220129T080321+0000

Record Last Update: 20260810T040626+0000

Ratings and Alerts

No rating or validation information has been found for BioWorks.

No alerts have been found for BioWorks.
