### Resource Information

**URL:** <https://github.com/Teichlab/tracer>

**Proper Citation:** TraCeR (RRID:SCR\_016338)

**Description:** Software application for recovery of T cell receptor (TCR) data from single cell data. Used to reconstruct full-length, paired T cell receptor (TCR) sequences from T lymphocyte single-cell RNA sequence data. Links T cell specificity with functional response by revealing clonal relationships between cells alongside their transcriptional profiles.

**Resource Type:** data processing software, software toolkit, data analysis software, simulation software, software resource, software application

**Defining Citation:** [PMID:26950746](#)

**Keywords:** recovery, receptor, single, cell, data, computation, method, reconstruct, sequence, T lymphocyte, RNA, sequence

**Funding:** European Research Council ;  
the Lister Institute for Preventative Medicine (S.A.T.)

**Availability:** Free, Available for download, Freely available

**Resource Name:** TraCeR

**Resource ID:** SCR\_016338

**License:** Apache licence

**Record Creation Time:** 20220129T080330+0000

**Record Last Update:** 20260731T043009+0000

---

### Ratings and Alerts

No rating or validation information has been found for TraCeR .

No alerts have been found for TraCeR .
