Proper Citation: Suite2P (RRID:SCR_016434)

Description: Software package for processing two-photon recordings. Available together with a graphical user interface that allows manual curation of the results. Used in two-photon microscopy for the analysis of data from two-photon imaging. Registers raw movies, detects active cells, extracts their calcium traces and infers their spike times.

Resource Type: data analysis software, data processing software, image processing software, software application, software resource, software toolkit

Keywords: two, photon, microscopy, processing, image, data, record

Availability: Free, Available for download, Freely available

Resource Name: Suite2P

Resource ID: SCR_016434

License: GNU General Public License, GUI

Record Creation Time: 20220129T080330+0000

Record Last Update: 20260829T182544+0000
