Type: Tool

Proper Citation

PolicyModels (RRID:SCR_019084)

Resource Information

URL: <https://github.com/IQSS/DataTaggingLibrary>

Proper Citation: PolicyModels (RRID:SCR_019084)

Description: Software tool to help humans interactively assess artifacts or situations against set of rules. Model consists of n-dimensional space and decision graph that guides users through that space using questions. Open source software tool for DataTags Decision Graph language, used to create questionnaires and tag spaces. Can be used to perform interactive interviews which yield concrete treatment that is both human readable and machine actionable. Models can also be visualized, and can be analyzed to find caveats or loopholes.

Synonyms: DataTags Language Tools, DataTags toolset

Resource Type: software resource, software toolkit

Keywords: Interactively assess artifacts, DataTags decision graph language, create questionnaire, create tag space, interactive interview creation
