Cornell University BRC Flow Cytometry Core Facility

RRID:SCR_021740

Type: Tool

Proper Citation

Cornell University BRC Flow Cytometry Core Facility (RRID:SCR_021740)

Resource Information

URL: <https://www.biotech.cornell.edu/core-facilities-brc/facilities/flow-cytometry-facility>

Proper Citation: Cornell University BRC Flow Cytometry Core Facility (RRID:SCR_021740)

Description: Facility provides training, consulting, assisted use and independent access for wide variety of cell sorting and analysis.

Synonyms: BRC Flow Cytometry Facility

Resource Type: access service resource, core facility, service resource

Keywords: USEdit, ABRF, cell sorting, cell analysis

Resource Name: Cornell University BRC Flow Cytometry Core Facility

Resource ID: SCR_021740

Alternate IDs: ABRF_1218

Alternate URLs: <https://coremarketplace.org/?FacilityID=1218>

Record Creation Time: 20220129T080357+0000

Record Last Update: 20260905T133422+0000

Ratings and Alerts

No rating or validation information has been found for Cornell University BRC Flow Cytometry Core Facility.

No alerts have been found for Cornell University BRC Flow Cytometry Core Facility.

Data and Source Information

Usage and Citation Metrics

We found 62 mentions in open access literature.

Listed below are recent publications. The full list is available at [NIF](#) .

Odell J, et al. (2026) Antagonistic contributions of A-type and B-type lamins to LBR localization and dynamics. *bioRxiv : the preprint server for biology*.

Wang KT, et al. (2026) RoboA reinforces planarian stem cell fate through FoxA and Anosmin1a. *Nature communications*, 17(1).

Wei X, et al. (2026) Interactome mapping in human excitatory neurons reveals novel risk genes and pathways in Alzheimer's disease. *bioRxiv : the preprint server for biology*.

Yang B, et al. (2026) Interactomics-driven discovery of alkaloid biosynthetic pathways in kratom. *bioRxiv : the preprint server for biology*.

Odell J, et al. (2026) Antagonistic contributions of A-type and B-type lamins to LBR localization and dynamics. *Nucleus (Austin, Tex.)*, 17(1), 2673721.

Elpers MA, et al. (2026) Polarization increases nuclear stiffness in macrophages despite reduction in lamin A/C levels. *npj biological physics and mechanics*, 3(1), 8.

Wu Y, et al. (2026) Identification and Optimization of Kratom Strictosidine Pathway Enabled by Yeast Multiplex Engineering. *bioRxiv : the preprint server for biology*.

Odell J, et al. (2026) A-type lamins anchor emerin at the inner nuclear membrane via two independent binding sites. *The Journal of biological chemistry*, 302(3), 111192.

Tabilas C, et al. (2026) Single-cell gene expression and TCR profiling reveal age-related differences in recent thymic emigrants. *iScience*, 29(5), 115582.

Carro MLM, et al. (2026) Argonaute proteins orchestrate Meiotic Sex Chromosome Inactivation and timing of the spermatogenic transcriptional program. *PLoS genetics*, 22(6), e1012217.

Donahue LR, et al. (2026) Hmga2-dependent cAMP signaling drives UVB-induced melanocyte stem cell activation. *The Journal of investigative dermatology*.
