Proper Citation: Pennsylvania State University Huck Institutes X-Ray Crystallography Core Facility (RRID:SCR_024464)

Description: Facility provides infrastructure and support for investigators to undertake single crystal X-ray structural studies. Provides instrumentation, training, and collaboration for Protein characterization, including dynamic light scattering, differential scanning calorimetry, bio-layer interferometry, and circular dichroism; Binding studies using isothermal titration calorimetry; Robotic crystallization, incubators, UV, and digital microscopes; Robotic imaging; Diffraction data collection and processing; Structure determination and analysis; Molecular modeling; Small angle X-ray scattering. Staff is available to train researchers to use equipment and to assist with project development and research.

Synonyms: Huck Institutes' X-Ray Crystallography Facility

Resource Type: core facility, access service resource, service resource

Keywords: ABRF, X Ray, Crystallography, AUC, Analytical Ultracentrifugation, Circular Dichroism, DLS, MALS
