University of Liverpool Shared Research Histology Core Facility (RRID:SCR_026606)

Resource Information

URL: <https://www.liverpool.ac.uk/research/facilities/histology/>

Proper Citation: University of Liverpool Shared Research Histology Core Facility (RRID:SCR_026606)

Description: Facility offers preparation of samples from fresh or fixed tissue through to scanned images. Provides training to prepare and use equipment to embed, section and hand stain tissues as required. Offers three different types of wax for embedding and sectioning as required. Fully equipped for methyl methacrylate and glycol methacrylate embedding and sectioning (including larger samples), freeze microtomy and high throughput slide imaging using our Zeiss Axioscan Z1.

Synonyms: University of Liverpool Shared Research Histology Facility

Resource Type: access service resource, service resource, core facility

Keywords: fresh or fixed tissue preparation, scanned images, embedding and sectioning, hand stain tissues, services

Resource Name: University of Liverpool Shared Research Histology Core Facility

Resource ID: SCR_026606

Alternate IDs: ABRF_3098

Alternate URLs: <https://coremarketplace.org/?FacilityID=3098&citation=1>

Record Creation Time: 20250319T060338+0000

Record Last Update: 20260806T054830+0000

Ratings and Alerts

No rating or validation information has been found for University of Liverpool Shared Research Histology Core Facility.

No alerts have been found for University of Liverpool Shared Research Histology Core Facility.
