Proper Citation: Taiji (RRID:SCR_028464)

Description: Software integrative analysis pipeline for analyzing bulk/single-cell ATAC-seq and RNA-seq data. Integrative multi-omics data analysis framework. It can be used as a standalone pipeline to analyze ATAC-seq, RNA-seq, single cell ATAC-seq or Drop-seq data. Used to integrate diverse datasets and use these information to construct regulatory network and identify candidate driver genes.

Resource Type: software resource, software toolkit, source code

Defining Citation: [PMID:30944857](#)

Keywords: integrative analysis, single-cell ATAC-seq data, RNA-seq data, identify driver transcription factors, construct regulatory network, identify candidate driver genes,

Funding: NHGRI R01HG009626;
NHGRI U54HG006997

Availability: Free, Available for download, Freely available

Resource Name: Taiji

Resource ID: SCR_028464

Alternate URLs: <https://taiji-pipeline.github.io/>

License: BSD-3-Clause

Record Creation Time: 20260519T054547+0000

Record Last Update: 20260904T001216+0000

Ratings and Alerts

No rating or validation information has been found for Taiji.
