Proper Citation: Genetics of Kidneys in Diabetes (RRID:SCR_000133)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on July 31, 2025. Collect, store, and distribute genetic samples from cases and controls of type 1 diabetes and diabetic nephropathy for investigator-driven research into the genetic basis of diabetic nephropathy. As the risk of kidney complications in type 1 diabetes appears to have a considerable genetic component, this study assembled a large data resource for researchers attempting to identify causative genetic variants. The types of data collected allowed traditional case-control testing, a rapid and often powerful approach, and family-based analysis, a robust approach that is not influenced by population substructure.

Abbreviations: GoKinD, Go KinD

Synonyms: Genetics of Kidneys in Diabetes (GoKinD) Study, Genetics of Kidneys in Diabetes Study

Resource Type: biomaterial supply resource, material resource

Defining Citation: [PMID:16775037](#)

Keywords: clinical, genetics, genetic variant, gene, data set

Related Condition: Type 1 diabetes, Diabetes, Diabetic nephropathy, Kidney disease

Funding: JDRF ;
NIH

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: Genetics of Kidneys in Diabetes

Resource ID: SCR_000133

Alternate IDs: nlx_152764

Old URLs: <http://www.gokind.org/access>

Record Creation Time: 20220129T080159+0000

Record Last Update: 20260829T183037+0000

Ratings and Alerts

No rating or validation information has been found for Genetics of Kidneys in Diabetes.
