Proper Citation: Open PHACTS Foundation (RRID:SCR_000495)

Description: A not-for-profit membership organization, supporting the Open PHACTS Discovery Platform: A sustainable, open, and interoperable information infrastructure for applied life science research and development. The foundation is the successor organization of the Open PHACTS project, and aims to ensure the sustainability of the Open PHACTS Discovery Platform infrastructure. OPF also acts as a hub for scientific research and development relevant to the life sciences, and serves as a forum for the scientific community, allowing idea exchange between the pharmaceutical industry, academia and SMEs. OPF is a UK-based not-for-profit membership organization, but operates in an international commercial environment.
