Proper Citation: Community Health Sciences (RRID:SCR_000794)

Description: A school for education on community health sciences based out of the University of Nottingham. The school contains the divisions of epidemiology, public health, primary care, psychiatry, rehabilitation and aging. The common thread running through each of these divisions is that they all deal with communities, whether these be the entire populations of a region or country, or particular patient groups such as the mentally ill, people with disabilities, and elderly people.

Synonyms: School of Health Sciences

Resource Type: continuing medical education, graduate school resource, data or information resource, postdoctoral program resource, portal, training resource, organization portal

Keywords: education, medical, community, health, science, psychiatry, public health, epidemiology, primary care, rehabilitation, aging, mentally ill, disability, elderly

Related Condition: Aging
