Type: Tool

Proper Citation

CenterWatch (RRID:SCR_001158)

Resource Information

URL: <http://www.centerwatch.com>

Proper Citation: CenterWatch (RRID:SCR_001158)

Description: CenterWatch is an online resource for news, directories, analysis, and proprietary market research for clinical research professionals and patients. For patients, CenterWatch is committed to providing information on clinical trials, specific drugs, as well as other essential health and educational resources. On this website, patients can search clinical trials, receive e-mail notifications about specific clinical trials, review results from completed clinical trials, search drug information, learn about volunteering for a clinical trial, read an overview of the clinical trials process and find other health and educational resources. For researchers, CenterWatch offers a wide range of tools and resources to improve patient and investigator recruitment, remain current with industry trends and business practices, and strengthen organizational procedures. CenterWatch also offers information on grant opportunities, and a variety of educational books and publications. Researchers can provide the public with information about their clinical trials by using the Clinical Trials Listing Service provided through CenterWatch, or look up more specific information on medicines and equipment using Drug and Device Pipeline News. Overall, the mission of CenterWatch is to be the leading source of news, directories, analysis, and proprietary market research for clinical research professionals and patients. It is located in Boston, MA. :NIF thanks the :Parkinson's Disease Foundation : for their referral of this resource to us.
