Radiological Research Accelerator Facility

RRID:SCR_001425
Type: Tool

Proper Citation

Radiological Research Accelerator Facility (RRID:SCR_001425)

Resource Information

URL: http://www.raraf.org/

Proper Citation: Radiological Research Accelerator Facility (RRID:SCR_001425)

Description: Biomedical technology research center dedicated for radiobiological research with available ionizing radiations such as protons, alpha particles, and neutrons. RARAF is well-established and highly user-friendly. The focus of RARAF is the development of high-throughput single-cell/single-particle microbeams, which can deliver defined amounts of ionizing radiation into individual cells with a spatial resolution of a few microns or better. The ability of a microbeam to put double strand break damage at any specific known location in a given cell has allowed new approaches to the study of damage signaling.

Abbreviations: RARAF

Synonyms: Columbia University Radiological Research Accelerator Facility

Resource Type: training resource, biomedical technology research center, service resource, access service resource

Keywords: radiobiological, ionizing radiation, proton, alpha particle, neutron, radiation, microbeam, irradiator, accelerator, ion, x-ray, cell

Funding: NIBIB P41 EB002033

Resource Name: Radiological Research Accelerator Facility

Resource ID: SCR_001425

Alternate IDs: nlx_152647

Record Creation Time: 20220129T080207+0000

Record Last Update: 20250519T205045+0000

Ratings and Alerts

No rating or validation information has been found for Radiological Research Accelerator Facility.

No alerts have been found for Radiological Research Accelerator Facility.
