Spliceosome Database

RRID:SCR_002097

Type: Tool

Proper Citation

Spliceosome Database (RRID:SCR_002097)

Resource Information

URL: <http://spliceosomedb.ucsc.edu/>

Proper Citation: Spliceosome Database (RRID:SCR_002097)

Description: A database of proteins and RNAs that have been identified in various purified splicing complexes. Various names, orthologs and gene identifiers of spliceosome proteins have been cataloged to navigate the complex nomenclature of spliceosome proteins. Links to gene and protein records are also provided for the spliceosome components in other databases. To navigate spliceosome assembly dynamics, tools were created to compare the association of spliceosome proteins with complexes that form at specific stages of spliceosome assembly based on a compendium of mass spectrometry experiments that identified proteins in purified splicing complexes.

Abbreviations: Spliceosome Database

Synonyms: Spliceosome Database - A source of information for the SLPICEOSOME: The large ribonucleoprotein complex responsible for pre-mRNA splicing, Spliceosome Component Database

Resource Type: data or information resource, database

Defining Citation: [PMID:23118483](#)

Keywords: splicing, mass spectrometry, protein, rna, complex, spliceosome, small nuclear rna, structure, dynamics, ortholog, gene

Availability: Free, Freely available

Resource Name: Spliceosome Database

Resource ID: SCR_002097

Alternate IDs: OMICS_01891

Record Creation Time: 20220129T080211+0000

Record Last Update: 20260829T182912+0000

Ratings and Alerts

No rating or validation information has been found for Spliceosome Database.

No alerts have been found for Spliceosome Database.
