Proper Citation: Montgomery-Asberg Depression Rating Scale (RRID:SCR_003690)

Description: A ten-item diagnostic questionnaire which psychiatrists use to measure the severity of depressive episodes in patients with mood disorders. Higher MADRS score indicates more severe depression, and each item yields a score of 0 to 6. The overall score ranges from 0 to 60. The questionnaire includes questions on the following symptoms: 1. Apparent sadness 2. Reported sadness 3. Inner tension 4. Reduced sleep 5. Reduced appetite 6. Concentration difficulties 7. Lassitude 8. Inability to feel 9. Pessimistic thoughts 10. Suicidal thoughts. Scoring: * 0-6 Normal/Symptom Absent * 7-19 Mild Depression * 20-34 Moderate Depression * >34 Severe Depression (Adapted from Wikipedia)
