Proper Citation: Medpedia (RRID:SCR_004269)

Description: Medpedia is an open platform connecting people and information to advance medicine. This wiki is the collaborative encyclopedia and resource for information about health, medicine and the body. Only physicians and Ph.D.s are allowed to edit the Articles on Medpedia after they create an account and are approved as an Editor. Non-Editors can create an account and then suggest changes that must be approved by an Editor before going live on the site. To suggest changes, click the link Suggest Changes at the top of Article Pages. Intended Uses and Benefits: * Reference source for both medical professionals and the lay-public covering information about health, medicine and the body * Forum for individuals and groups to be recognized for their areas of expertise * Clearinghouse of bio-medical journal articles, data, research, and educational materials * Forum for debating emerging issues * Platform for advancing medical knowledge
Medpedia Portals - Adult Primary Care, Allergy and Immunology, Anatomy, Cardiology, Emergency Medicine, Endocrinology, Epidemiology, Gastroenterology and Hepatology, General Medicine, Infectious Diseases, Internal Medicine, Neurology & Neurobiology, Nutrition, OB/GYN and Reproductive Health, Oncology, Orthopedics, Pathology, Pediatrics, Pharmacology, Psychiatry, Public Health, Pulmonology, Rheumatology, Women's Health In association with Harvard Medical School, Stanford School of Medicine, Berkeley School of Public Health, University of Michigan Medical School and other leading global health organizations, Medpedia will be a commons for the gathering of the information and people critical to health care.
