Proper Citation: Functional Genomics Data Society (RRID:SCR_004358)

Description: THIS RESOURCE IS NO LONGER IN SERVICE.Documented on July 7, 2022. Functional Genomics Data Society - FGED Society, founded in 1999 as the MGED Society, advocates for open access to genomic data sets and works towards providing concrete solutions to achieve this. Our goal is to assure that investment in functional genomics data generates the maximum public benefit. Our work on defining minimum information specifications for reporting data in functional genomics papers have already enabled large data sets to be used and reused to their greater potential in biological and medical research. We work with other organizations to develop standards for biological research data quality, annotation and exchange. We facilitate the creation and use of software tools that build on these standards and allow researchers to annotate and share their data easily. We promote scientific discovery that is driven by genome wide and other biological research data integration and meta-analysis.

Abbreviations: FGED, MGED

Synonyms: MGED Society, FGED Society

Resource Type: data or information resource, topical portal, portal

Keywords: functional genomics

Funding: Illumina

Availability: THIS RESOURCE IS NO LONGER IN SERVICE.

Resource Name: Functional Genomics Data Society

Resource ID: SCR_004358

Alternate IDs: nlx_37824

Record Creation Time: 20220129T080224+0000

Record Last Update: 20250429T054911+0000

Ratings and Alerts

No rating or validation information has been found for Functional Genomics Data Society.

No alerts have been found for Functional Genomics Data Society.
