**Proper Citation:** Upstate New York Transplant Services (RRID:SCR\_004835)

**Description:** Leading procurement organization in the United States and one of the only eight centers nationwide to house organ, tissue and eye procurement in one location. With the addition of Community Blood Service, Upstate New York Transplant Services has become the first organization of its kind nationwide. It operates as a non-profit serving the eight counties of Western New York and works to assist donor families, coordinate the donation process and increase knowledge and awareness within the community regarding transplantation. Upstate New York Transplant Services is ranked as one of the top procurement organizations nationwide. In 1997, Upstate New York Transplant Services had just 200 donors; in 2007 the organization surpassed 1,000. In the summer of 2007, Upstate New York Transplant Services added community blood banking services - bringing both a significant savings to area hospitals and assurance to Western New York donors that their blood donations remain local.
