Proper Citation: Protein Biotechnologies (RRID:SCR_004893)

Description: Protein Biotechnologies Inc., a San Diego, California based company, provides global pharmaceutical, biotechnology, government and academic institutions with human clinical specimen derivatives and high-throughput protein and tissue microarrays. With the largest collection of ready-to-use, clinically defined, pathology-validated human specimen derivatives on the market, Protein Biotechnologies facilitates biomedical research and drug discovery efforts for cancer, neurodegenerative diseases, cardiovascular diseases, diabetes / obesity and autoimmune disease research. To facilitate high-throughput screening of human clinical specimens, Protein Biotechnologies provides its tissue lysate library on ready-to-use protein microarrays. And, for protein localization, immunohistochemical and in-situ hybridization studies, Protein Biotechnologies" tissue microarrays are an ideal method for studying multiple human cancer / normal tissues in a single assay. Key Products & Services: * Reverse Phase Protein Microarrays * Human Clinical Tissue Lysates * Tissue Microarrays * Primary & Secondary Antibodies * Supplemental Research Reagents * Protein, RNA and DNA Isolation and Purification * Peptide Synthesis * Custom Protein and Peptide Microarray Design and Manufacturing * Custom Antibody Production

Abbreviations: Protein Biotechnologies

Synonyms: Protein Biotechnologies Inc.

Resource Type: material resource, instrument supplier

Funding:

Resource Name: Protein Biotechnologies

Resource ID: SCR_004893

Alternate IDs: nlx_86596

Record Creation Time: 20220129T080227+0000

Record Last Update: 20250428T053130+0000

Ratings and Alerts

No rating or validation information has been found for Protein Biotechnologies.

No alerts have been found for Protein Biotechnologies.
