RSeQC

RRID:SCR_005275

Type: Tool

Proper Citation

RSeQC (RRID:SCR_005275)

Resource Information

URL: <http://code.google.com/p/rseqc/>

Proper Citation: RSeQC (RRID:SCR_005275)

Description: Software package to comprehensively evaluate different aspects of RNA-seq experiments, such as sequence quality, GC bias, polymerase chain reaction bias, nucleotide composition bias, sequencing depth, strand specificity, coverage uniformity and read distribution over the genome structure. RSeQC takes both SAM and BAM files as input, which can be produced by most RNA-seq mapping tools as well as BED files, which are widely used for gene models.

Abbreviations: RSeQC

Synonyms: rseqc - RNA-seq quality control package

Resource Type: data analysis software, data processing software, sequence analysis software, software application, software resource

Defining Citation: [PMID:22743226](#)

Keywords: python, qc, rna-seq, high throughput sequencing

Resource Name: RSeQC

Resource ID: SCR_005275

Alternate IDs: OMICS_01235

Record Creation Time: 20220129T080229+0000

Record Last Update: 20260829T182211+0000

Ratings and Alerts

No rating or validation information has been found for RSeQC.

No alerts have been found for RSeQC.

Data and Source Information
