Proper Citation: Emory Neurology Database (RRID:SCR\_005277)

**Description:** A database which retains extensive clinical information about study subjects recruited by the Alzheimer's Disease Research Center Clinical Core, as well as other individuals with neurological diseases. In addition to clinical information, the database has basic demographics, medical history (including risk factors such as smoking), and a detailed family history from all subjects. Some entries have neuropsychological measures. Users can access a Summary Database which contains the most commonly requested variables. A data dictionary describing the variables in the Summary Database is available.

Resource Type: database, data or information resource

**Keywords:** alzheimer's disease, mild cognitive impairment, dementia, lewy body disease, parkinson's disease, movement disorder, amyotrophic lateral sclerosis, stroke, sleep disorder, clinical data, family history

**Related Condition:** Alzheimer's disease, Mild Cognitive Impairment, Frontotemporal dementia, Dementia, Lewy body disease, Parkinson's disease, Amyotrophic lateral sclerosis, Stroke, Sleep disorder
