Proper Citation: SocioPatterns (RRID:SCR_005739)

Description: SocioPatterns is an interdisciplinary research collaboration that adopts data-driven methodology with the aim of uncovering fundamental patterns in social dynamics and coordinated human activity. To achieve its scientific goals, the SocioPatterns collaboration also contributes to the development of new technologies for collecting relevant data. In particular, the collaboration supports the development of the SocioPatterns sensing platform, which uses wireless wearable sensors to gather longitudinal data on human mobility and face-to-face proximity in real-world environments. The SocioPatterns team also works on developing tools and techniques to represent, analyze and visualize the collected data. We increasingly use digital media and computational devices in our daily activities, and leave behind a sizable amount of digital traces while doing so. The proliferation of mobile devices, and the incorporation of various sensing technologies in these devices, will further add to this growing trail of data. The possibility to mine and analyze these data, and the scale at which this can be done on contemporary computer systems, affords a novel, data-driven approach in the investigation of various aspects of human behavior. The following collection of datasets obtained through the SocioPatterns sensing platform are available: * Infectious SocioPatterns dynamic contact networks * Hypertext 2009 dynamic contact network * Primary school cumulative networks * Infectious SocioPatterns

Abbreviations: SocioPatterns

Synonyms: Socio Patterns

Resource Type: data or information resource, instrument manufacture, material service resource, portal, production service resource, service resource

Keywords: social dynamics, human activity, sensor, human mobility, face-to-face proximity, contact network, infectious disease, child, early human

Funding: Institute for Scientific Interchange Foundation ;
CNRS

Resource Name: SocioPatterns

Resource ID: SCR_005739

Alternate IDs: nlx_149199

Record Creation Time: 20220129T080232+0000

Record Last Update: 20260821T193747+0000

Ratings and Alerts

No rating or validation information has been found for SocioPatterns.

No alerts have been found for SocioPatterns.
