Proper Citation: LeadDiscovery: Providing Information to the Drug Discovery Sector (RRID:SCR_006464)

Description: LeadDiscovery was founded by life scientists to expedite drug discovery and pharmaceutical development. Based on a solid background of experience from within the pharmaceutical research and development sector, the aim of this resource is to help companies optimize drug discovery and product pipelines through the identification of breaking research and the in depth and expert evaluation of selected therapeutic areas. At the same time it also provides a showcase for pharmaceutical, biotechnology and academic organizations wishing to increase the exposure of their research to the drug development community. LeadDiscovery sits at the center of this sector helping companies to identify commercially viable R&D options from within small biotechs and the public sector. Additionally, it supports the drug discovery and pharmaceutical development community through three key services: DailyUpdates, UpdatesPlus and PharmaReports - DailyUpdates: Launched in 2002 this popular e-mail alert service delivers information on breaking research, new clinical trials, drug development news and recently published market research and pipeline analysis reports. Registration to receive the service is available here - UpdatesPlus: Developed in 2007 as an extension of DailyUpdates, UpdatesPlus provides a monthly in depth analysis of breaking research and development activity in high profile therapeutic areas. - PharmaReports: LeadDiscovery offers a wide range of in depth pharmaceutical reports. It's reports include market research reports and pipeline analyses. You can search our entire portfolio using LeadDiscovery's search engine. Alternatively as it are one of the few information providers that has extensive research and development experience, LeadDiscovery occupies a unique position of being able to source reports that accurately meet your needs. If we don't have a report that fits your requirements, it can produce one through its pharmaceutical consultancy services. LeadDiscovery offers full reports in selected areas of the pharmaceutical and biotech sector. Each of the reports below has been especially selected by LeadDiscovery and

categorized into relevant areas: - Oncology - Cancer Immunotherapy - Immunology & Inflammatory Diseases - Infectious Diseases - Psychiatric, Addictive & Sleep Disorders - Pain - Neurodegenerative & Neuroelectrophysiological Disorders - Metabolic & Hormonal Disorders - Cardiovascular Disorders - GenitoUrinary Tract Disorders - Technology - Diagnostics & Devices - Other Therapeutic Areas, Pharmaceutical Strategy and Development
