Proper Citation: Autoimmunity Centers of Excellence (RRID:SCR_006510)

Description: Nine centers that conduct clinical trials and basic research on new immune-based therapies for autoimmune diseases. This program enhances interactions between scientists and clinicians in order to accelerate the translation of research findings into medical applications. By promoting better coordination and communication, and enabling limited resources to be pooled, ACEs is one of NIAID's primary vehicles for both expanding our knowledge and improving our ability to effectively prevent and treat autoimmune diseases. This coordinated approach incorporates key recommendations of the NIH Autoimmune Diseases Research Plan and will ensure progress in identifying new and highly effective therapies for autoimmune diseases. ACEs is advancing the search for effective treatments through: * Diverse Autoimmunity Expertise Medical researchers at ACEs include rheumatologists, neurologists, gastroenterologists, and endocrinologists who are among the elite in their respective fields. * Strong Mechanistic Foundation ACEs augment each clinical trial with extensive basic studies designed to enhance understanding of the mechanisms responsible for tolerance initiation, maintenance, or loss, including the role of cytokines, regulatory T cells, and accessory cells, to name a few. * Streamlined Patient Recruitment The cooperative nature of ACEs helps scientists recruit patients from distinct geographical areas. The rigorous clinical and basic science approach of ACEs helps maintain a high level of treatment and analysis, enabling informative comparisons between patient groups.

Abbreviations: ACE

Resource Type: data or information resource, disease-related portal, portal, research forum portal, resource, topical portal

Keywords: immune system, infection, clinical trial, clinical, basic research

Related Condition: Type 1 diabetes, Diabetes, Autoimmune disease, Systemic lupus erythematosus, Rheumatoid arthritis, Sjogren's syndrome, Multiple sclerosis, Chronic

inflammatory bowel disease, Pemphigus vulgaris, Scleroderma

Funding: NIAID ;
NIDDK ;
NIH Office of Research on Womens Health

Resource Name: Autoimmunity Centers of Excellence

Resource ID: SCR_006510

Alternate IDs: nlx_152751

Record Creation Time: 20220129T080236+0000

Record Last Update: 20260821T193749+0000

Ratings and Alerts

No rating or validation information has been found for Autoimmunity Centers of Excellence .
