DOI

RRID:SCR_006632

Type: Tool

Proper Citation

DOI (RRID:SCR_006632)

Resource Information

URL: <http://www.doi.org/>

Proper Citation: DOI (RRID:SCR_006632)

Description: A system for identifying content objects in the digital environment. DOI names are assigned to any entity for use on digital networks. They are used to provide current information, including where they (or information about them) can be found on the Internet. Information about a digital object may change over time, including where to find it, but its DOI name will not change. The DOI System provides a framework for persistent identification, managing intellectual content, managing metadata, linking customers with content suppliers, facilitating electronic commerce, and enabling automated management of media. DOI names can be used for any form of management of any data, whether commercial or non-commercial. The DOI System is an ISO International Standard. Using DOI names as identifiers makes managing intellectual property in a networked environment much easier and more convenient, and allows the construction of automated services and transactions.

Abbreviations: DOI

Synonyms: DOI System, Resolve A DOI Name, Digital Object Identifier System, Digital Object Identifier

Resource Type: data or information resource, international standard specification, narrative resource, standard specification

Keywords: gold standard

Resource Name: DOI

Resource ID: SCR_006632

Alternate IDs: nlx_15417

Alternate URLs: <https://www.force11.org/node/4738>

Record Creation Time: 20220129T080237+0000

Record Last Update: 20260821T193800+0000

Ratings and Alerts

No rating or validation information has been found for DOI.

No alerts have been found for DOI.
